In [Alice in Wonderland]. Alice becomes huge by drinking a bottle tagged with "DRINK ME" and gets smaller by fanning herself with the fan White Rabbit dropped. Rat is the second character Alice meets in [Alice in Wonderland]. There's a talk how Rat is modelled after Alice's personal tutor. In the original, Rat is refereed to as "MOUSE", and Alice describes him as "looking pretty dignified". It doesn't appear in secondary productions like the movies made by Walt Disney (1951) and Tim Burton (2010).

MISTY RAIN

I finally found it! Star point! So, you can show off to your friends if you have this, huh?
You've found a star point!
You bastards
As if.
